

Topic: Italy. This topic explores where Italy is in Europe and volcanoes.

Ideas:

- Find Italy in a map of Europe. Can you trace the shape of it? What does it look like? What is the capital city? What is the name of the main river running through the capital city?
- How many other countries in Europe can you name? Do you know the names of the capital cities? If not, find out!
- Research the two famous volcanoes of Italy. Make a fact poster about them.
- Why is Pompeii like a time capsule? What can you find out about what happened there?

Maths: Go to the White Rose website and click on Home learning, Year 3 and try some multiplication and division. Practise your x 4 and x 8 times tables on the TimesTables Rockstars website.

Reading: Read books from Oxford Owl Reading website.
