

## Year 1 Summer Term: What happens in Summer?

### English

This term we will use these texts to support our learning. We will develop our phonics skills and write using a range of genres.

### Maths

As mathematicians, we will learn about numbers to 50 and partition these into tens and ones. We will also continue to develop our skills of addition and subtraction and master our problem solving and reasoning skills within these areas.

### Science

As scientists, we will learn about plants.

We will also learn to name different plants and learn about the different parts of a plant. We will plant our own flowers and observe the changes that happen.

We will also review the seasons we have observed and compare them to each other.

### Geography

As geographer, we will explore weather. We will compare the weather in a hot and a cold place with the weather here in Hull.

### History

As historians, we will learn about seaside holidays in the past and we will learn about Grace Darling's bravery.

### Art

As artists, we will appreciate the work of Andy Goldsworthy and we will create our own sculptures using nature.

### D&T

As design technologists, we will investigate, design, make and review a healthy snack. We will also explore where our food comes from.

### Computing

In computing, we will use skills and knowledge to combine images, text and voice recordings.

### RE

The RE theme worship and festivals. We will consider what worship means.

### Music

As musicians, we will use our voices and body parts in different ways to compose and perform songs and rhythms.

### RSHE

Jigsaw themes are: relationships and changing me.

### PE

As sports people, we are very lucky to work with Tigers Trust to learn ball skills and use these in games practicing our good sportsmanship.
